

BELL INDUSTRY ADVISORY

Network-to-Network Interface Disclosure: BID 0028

December 13, 2010

No. BIA – 1w

Subject: BID 0028 “9-1-1 Public Emergency Reporting Service (9-1-1 PERS) Network-to-Network Interface between Wireless Service Providers (Wireless Carriers) and Bell Canada Network”

Bell Canada announces that a new version of the 9-1-1 PERS network-to-network interface (BID-0028 version 4) is available.

This revised documentation will provide wireless Phase 2 Stage 1 E9-1-1 support to wireless service providers and wireless carriers as ordered in CRTC Telecom Decision 2009-328.

Compatibility Impact

None

Documentation

BID 0028 is available in electronic format from the Bell Canada Disclosures web site at www.bce.ca/aboutbce/regulatory/interface-disclosures.
