BELL INDUSTRY ADVISORY

Terminal-to-Network Interface Disclosure: BID 0013

May 7, 2010

No. BIA – 1v

Subject: BID 0013 "9-1-1 Public Emergency Reporting Service (9-1-1 PERS) Terminal-to-Network Interface"

Bell Canada announces that after March 31, 2010 it will not support new implementations of the terminal-to-network interface as described in BID-0013 Appendix 6 "Data Transmission Protocol for ALI-CAD Communications Using Service Address With TCP/IP Interface ".

Implementations that are in-service as of March 31, 2010 can remain in-service until no longer required (i.e. they will be 'grandfathered').

This change is reflected in BID 0013 Issue 14, dated April 2010.

Compatibility Impact
None

Documentation
BID 0013 is available in electronic format from the Bell Canada Disclosures website at
